

## Safety first - for everyone's good!

Land racing on the TimeWinder is for all nostalgics with petrol in their blood and the desire to drone across the party grounds behind a wheel. The aim is to present "live" fragments from the history of street racing as a tribute to people, vehicles and the lifestyle that raced in the car's childhood. At TimeWinder Landracing, the goal is not only to win honors and glory, but to be part of the storytelling. But nevertheless, safety must be at the top and therefore there are a few mandatory and essential rules that all drivers must comply with.

At the TimeWinders Landracing in Whitsun 2024, we are racing after DASU's

Vintage drag racing regulations 20-02-2024
